

3M INDIA LTD 48/50, HOSUR ROAD,
ELECTRONIC CITY, BANGALORE,
KARNATAKA - 560 10

5th Jan 2021

To: End User and Customer.

Report No. CWS/02/2021-V2

Subject: 3M™ Nomad™ Matting LEED® credits declaration.

3M continues to maintain standards of manufacturing excellence, quality products, customer service and environmental leadership. 3M has internal policies designed to grow and protect our business, customers, and the environment.

3M™ Nomad™ Matting traps, holds, and hides dirt and water. Preventing dirt and water from entering a facility helps to maintain a clean and safe environment, not only by providing a clean appearance, but also by helping to reduce slip and fall incidents. Reducing the amount of water and dirt tracked into a facility can also help prevent damage to floor finishes and reduce the amount of time needed to clean the floors. By decreasing the frequency at which floors need to be stripped, re-coated, and cleaned, you can also help reduce the amount of time, energy, and chemicals needed to carry out these operations.

3M™ Nomad™ Z -web, Loop, and Aqua Matting System applicable for same. (Limited series)

Use of this products may help to contribute following credits under LEED®:

- LEED® EB v2.0- EQ Credit 10.1 Green Cleaning; Entryway systems.
- LEED® EB M&O -EQ Credit 3.8; Green Cleaning; Entryway Systems,
- LEED® EB v3.0- IEQ Credit 3.5; Green Cleaning; Indoor Chemical and Pollutant Source Control.
- LEED® EB O&M - IEQ Credit 3.5

Note: [Due to the wide variety of intervening factors, which are beyond 3M control end customer must evaluate application before use. For more information please contact our nearest 3M representative](#)

Thanking You,

Suresh Babu
